

TECHNICAL Data

VINYL GLOSS

DESCRIPTION: This is a water based product that will protect and beautify vinyl surfaces such as dashboards and upholstery while leaving a lasting shine. It restores colour and lustre to vinyl siding on homes that have been faded by sunlight.

It is a white, opacified product with added silicone through new micro emulsion technology that readily polishes and cleans surfaces to impart water repellence and high gloss.

DIRECTIONS: Apply with a cloth, sponge or sprayer directly on to a clean dry surface. When applying on vinyl siding, it is important to wash the surface with a pressure wash detergent first.

Shake well before use.

FOR COMMERCIAL USE
