

## BIO DEGREASER

**DESCRIPTION:** This product is formulated with a highly active blend of non-pathogenic microorganisms and enzymes that degrade protein, starches, carbohydrates, cellulose, fats, grease and oils. It is ideally suited for use in food service areas, cafeterias, kitchens, restrooms, locker rooms, shower rooms, restrooms and garbage receptacles where organic waste contributes to malodour. The enzymatic activity readily digests spoiled food.

Bio Degreaser is a 100% biodegradable, environmentally responsible, non-toxic, non-corrosive product. It is safe to use on a variety surfaces, including concrete, tile, grout, brick, rubber mats, porcelain and carpet. This product is non-foaming, making it ideal for use as a vent and hood cleaner in automatic systems and in mop bucket, automatic scrubber and carpet cleaning applications. It does not require rinsing and leaves a pleasant odour on contact surfaces and in equipment. The enzymes left behind will continue to digest organic waste long after application of this product. Bio Degreaser performs best at the temperature range of 20°C - 40°C.

### DIRECTIONS FOR USE

SHAKE WELL BEFORE USE. MIX IN WARM WATER.

**Heavy Duty Cleaning:** 30 – 60 mL/L

**Medium Duty Cleaning:** 15 – 30 mL/L

**Light Duty Cleaning:** 7 mL/L

Avoid eye contact and excessive inhalation. Wash hands thoroughly with warm soapy water after handling.
