

AWESOME (WAX)

This product is a concentrated wax emulsion for use on rubber floors, tile and linoleum. It is formulated to make a high sheen and hard scuff resistant finish. It may be applied with a mop or with a scrubbing machine. After drying, it can be buffed with a high speed machine to further enhance the gloss. This no-buff system is ideal for areas where use of a floor machine is not practical. The finish is maintained by dust mopping and damp mopping. When the surface shows signs of wear, a thorough cleaning will prepare it for re-coating. The worn area can be touched up with an additional coat of finish to restore the gloss.

DIRECTIONS:

Initial Waxing

After wax stripping and floor cleaning, apply product straight for the initial wax coating. Apply a thin, even coat. Do not rub! Another thin coat is recommended for added gloss and protection. One litre covers 60-65 square meters. Allow at least one hour for drying before applying a second coat.

Maintenance and Shining

Clean floor with a neutral detergent. Dilute product 25mL/L (4 oz/Gal) and apply a thin layer by mopping or with a scrubbing machine. Allow to dry.

FOR COMMERCIAL USE
