

GERMICIDAL HAND SOAP

A synthetic, coral colored, antibacterial hand soap specifically formulated for gentle and efficient cleansing of hands. It contains PCMX, which is a highly effective broad spectrum antimicrobial agent that provides excellent anti-bacterial activity to reduce and control the microflora of the skin, while imparting residual bacteriostatic activity. This product is ideally suited for institutional and food plant applications.

DIRECTIONS: Place approximately 1 -2 ml in palm of hand, add 15 cc of water, lather and wash in a normal manner. Rinse hands thoroughly with potable water.

GUARANTEE: Para-chloro-meta-xyleneol 0.6%

DIN 01977873

The Canadian Food Inspection Agency has no objection to the use of this product in food plants when used according to label directions.
