

TECHNICAL Data

BATHROOM POWER

DESCRIPTION: BATHROOM POWER is a highly concentrated, all-purpose bathroom cleaner / descaler / sanitizer. It contains a blend of organic acids for removing hard water scale, quaternary ammonium compounds for sanitizing, and a high concentration of surfactants for removal of dirt and soap scum. BATHROOM POWER is biodegradable, solvent-free and phosphate-free. This product is an all-around cleaner that can be used on walls, floors, fixtures, faucets, countertops, sinks, tubs, urinals and toilets. It kills germs and revitalizes bathrooms with a light fresh scent.

DIRECTIONS:

Light Duty Cleaning: Dilute at 2 oz/gallon (15 mL/L) with water to give 200 ppm active sanitizing.

Medium Duty Cleaning and Descaling: Dilute at 4-8 oz/gallon (30-60 mL/L) with water.

Heavy Duty Cleaning and Descaling: Dilute at 32 oz/gallon (250 mL/L) with water.

Product can be applied with a rag, mop or spray bottle.

CAUTION: Contains organic acids. Avoid inhalation of misted product. Avoid contact with skin and eyes. Do not allow excessive dwell times on metals.

FOR COMMERCIAL USE
