

PEROXY

For use in food plants and other institutional applications.

LAUNDRY: Use 125 ml (1/4 cup) per large load.

TOILET BOWLS AND URINALS: Squirt a small amount in toilet bowl or urinal, spread with a bowl mop, allow to soak a few seconds and rinse.

EXTERIOR BUILDING CLEANING: PEROXY can be used undiluted to restore wood surfaces, or diluted 1:20 parts with hot water to clean most exterior surfaces without fear of contributing to environmental pollution.

ODOUR CONTROL: For use in septic tanks, holding tanks, commercial applications and in a variety of water fountain operations. The addition of PEROXY increases free oxygen in various systems, controlling odour and does not contribute to environmental pollution.

CLEANING/WHITENING FLOORS, BRIGHTENING CARPETS: Add 1:64 parts with hot water. It will leave no residue.

CLEANING BOOSTER: Add to pre-diluted cleaning solutions to improve the cleaning properties of degreasers, neutral cleaners, dishwashing systems and laundry cleaning-brightening.

WATER BOTTLES, COFFEE POTS, ICE CUBE TRAYS: Dilute 1:15 parts with water. Use hot water and soak for 20 minutes or use cold water and soak overnight. Rinse. It will bleaches out organic residue without leaving a hazardous chemical residue.

Contains: hydrogen peroxide

DO NOT MIX WITH CHLORINE BASED PRODUCTS.

KEEP OUT OF REACH OF CHILDREN.

CAUTION: Hypersensitive individuals should test before using. Avoid contact with skin and eyes. If splashed in eyes or on skin flush immediately with cool water. Store in a cool place.

All food contact surfaces should be thoroughly rinsed with potable water.

The Canadian Food Inspection Agency has no objection to the use of this product in food plants when used according to label directions.
