

CARPET STEAM CLEANER

This is an excellent cleaning product designed for use in steam and hot water extraction equipment. It contains the specially blended ingredients required to provide optimum results on all types of carpet fibres.

DIRECTIONS:

Light to medium soils: use 1-2 oz/gallon (7-12 ml/L) of hot water.

Heavy soils: use 3-4 oz/gallon (18-25 ml/L) of hot water. Dilution will depend on cleaning application.

For Pre-spray: use at full strength; let sit for up to 5 minutes, then extract. More contact time may be required depending on amount of soil in carpet.

NOTE: Test carpet for colour fastness before using.
