# **Safety Data Sheet**

# 1. IDENTIFICATION

Product Identifier:SBT-432Product Code:S745Other Name(s):

### Date of Revision: February 09, 2017

### Recommended Use and Restrictions on Use: steam boiler treatment

Distributed By: Halabi Chemicals Ltd. 127 Ozerna Rd. NW Edmonton, Alberta, Canada T5Z 2Z4 www.halabichemicals.ca Phone: 780-473-2608 In Case of Emergency Only, Phone CANUTEC: 613-996-6666

# 2. HAZARDSIDENTIFICATION

Classification of the Mixture:	Eye Damage/Irritation - Category 1
	Skin Corrosion/Irritation - Category 1
Label Elements:	

Hazard Pictogram(s):

Signal Word:	DANGER
Hazard Statement(s):	Causes severe skin burns and eye damage.

# Precautionary Statement(s):

Prevention:	Do not breathe dusts or mists. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, and eye/face protection.
Response:	<ul> <li>IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a poison centre or physician.</li> <li>IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse. Immediately call a poison centre or physician.</li> <li>IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison centre or physician.</li> <li>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a poison centre or physician.</li> </ul>
Storage:	Store locked up.
Disposal:	Dispose of contents/container in accordance with local/regional/national/international regulations.

### Physical/health hazards not otherwise classified:

not applicable

3. COMPOSITION/INFORMATION ON INGREDIENTS				
<u>Chemical Name</u> sodium hydroxide (50%) tetrasodium salt of ethylene diamine tetraacetic acid (40%)	<u>Conc.</u> 5.0% 5.0%	<u>CAS #</u> 1310-73-2 64-02-8	<u>Common Names</u> caustic soda, lye	
trisodium nitrilotriacetate	5.0%	5064-31-3		

# 4. FIRST-AID MEASURES

# **Necessary Measures:**

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a poison centre or physician.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse. Immediately call a poison centre or physician.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison centre or physician.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a poison centre or physician.

### Most important symptoms, both acute and delayed:

Causes serious eye damage.

Causes severe skin burns and eye damage.

### Indication of immediate medical attention and special treatment needed, if necessary:

not applicable

### 5. FIRE-FIGHTING MEASURES

### Suitable (and unsuitable) extinguishing media:

Use extinguishing media appropriate for surrounding fire.

### Specific hazards arising from the chemical (e.g.: hazardous combustion products):

May liberate carbon monoxide, carbon dioxide and oxides of sodium.

### Special protective equipment and precautions for firefighters:

As for surrounding fire. Firefighters should wear full protective clothing and self contained breathing equipment.

# **6. ACCIDENTAL RELEASE MEASURES**

### Personal precautions, protective equipment and emergency procedures:

Wear appropriate protective equipment. See section 8.

### **Environmental precautions:**

Prevent from entering sewers, waterways or low areas.

### Methods and materials for containment and cleaning up:

Isolate hazard area and restrict access. Small spills: soak up with inert absorbent material and scoop into containers. Large spills: prevent contamination of waterways. Dike and pump into suitable containers. Clean up residual with absorbent material, place in appropriate container and flush with water.

# 7. HANDLING AND STORAGE

### Precautions for safe handling:

Do not breathe dusts or mists. Wash hands thoroughly after handling. Do not ingest. Avoid contact with eyes, skin and clothing.

### Conditions for safe storage, including any incompatibilities:

Store locked up.

Keep out of reach of children. Store in a cool, dry area.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters - Exposure limits:	
Ingredient:	<u>Limit:</u>
sodium hydroxide (50%)	ACGIH TLV: 2 mg/m3
tetrasodium salt of ethylene diamine tetraacetic acid (40%)	not available
morpholine	ACGIH TLV-TWA: 20 ppm
trisodium nitrilotriacetate	not available

### Appropriate engineering controls:

Provide exhaust ventilation to keep airborne levels below recommended exposure limits.

# **Respiratory protection:**

If exposure exceeds occupational exposure limits, use an appropriate NIOSH approved respirator.

### Other protection:

Wear protective gloves, protective clothing, and eye/face protection.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance (physical state, colour etc.):	clear, pale liquid
Odour:	amine odour
Odour threshold:	not available
pH:	alkaline
Melting/Freezing point:	not available
Initial boiling point and range:	not available
Flash point:	not applicable
Evaporation rate:	not available
Flammability (solid, gas):	not available

Upper/lower flammability or explosive limits: Vapour pressure:	not available not available
Vapour density:	not available
Relative density (specific gravity):	1.110
Solubility(ies):	complete
Partition co-efficient: n-octanol/water:	not available
Auto-ignition temperature:	not available
Decomposition temperature:	not available
Viscosity:	not available

# **10. STABILITY AND REACTIVITY**

### **Reactivity:**

This material is considered to be non-reactive under normal use conditions.

### Chemical stability:

Stable.

# Possibility of hazardous reactions:

Reacts with acids and metals

# Conditions to avoid (e.g.: static discharge, shock or vibration):

not applicable

### Incompatible materials:

Oxidizers / Acid

### Hazardous decomposition products:

not available

# **11. TOXICOLOGICAL INFORMATION**

### POTENTIAL ACUTE HEALTH EFFECTS

Inhalation:	High vapour concentrations caused, for example, by heating the material in an enclosed and poorly ventilated workplace, may produce nausea, vomiting, headache, dizziness, and irregular eye
	movements. Prolonged or repeated overexposure may result in lung damage. Prolonged or repeated overexposure may result in the absorption of potentially harmful amounts of material.
Ingestion:	May be harmful if swallowed.
Eye contact:	Causes serious eye damage.
Skin contact:	Causes severe skin burns and eye damage.
Skin absorption:	not available
POTENTIAL CHRONIC HEALTH EFFECTS	
Inhalation:	not available

not available
not available
not available
not available
not available

Mutagenicity:	not available
Carcinogenicity:	This information, if applicable, can be found in Section 2.
Reproductive toxicity:	This information, if applicable, can be found in Section 2.
Sensitization of product:	This information, if applicable, can be found in Section 2.
Specific Target Organ Toxicity - single exposure:	This information, if applicable, can be found in Section 2.
Specific Target Organ Toxicity - repeated exposure:	This information, if applicable, can be found in Section 2.

Data:

not available

Oral LD50: 1000 mg/kg (rat)

Oral LD50: 1900 mg/kg (rat) Dermal LD50: 500 mg/kg (rabbit)

Oral LD50: 1450 mg/kg (rat)

### Toxicological Data:

Ingredient: sodium hydroxide (50%) tetrasodium salt of ethylene diamine tetraacetic acid (40%) morpholine

trisodium nitrilotriacetate

# Other Toxicological Information on Ingredients:

# trisodium nitrilotriacetate

Suspected of causing cancer.

# **12. ECOLOGICAL INFORMATION**

Ecotoxicity (aquatic and terrestrial, where available): Persistence and degradability: Bioaccumulative potential: Mobility in soil: Other adverse effects: not available not available not available not available not available

# **13. DISPOSAL CONSIDERATIONS**

Waste disposal: Disposal of all waste must be done according to local, provincial and federal regulations.

# **14. TRANSPORT INFORMATION**

TDG classification: UN 1824; SODIUM HYDROXIDE SOLUTION; CLASS 8; PG II

# **15. REGULATORY INFORMATION**

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and the SDS contains all the information required by the HPR.

# **16. PREPARATION INFORMATION**

Prepared by:Technical Services Department, Halabi Chemicals Ltd., Ph.: 780-473-2608Date of Preparation:February 09, 2017Date of Revision:February 09, 2017
