

GT-750 GLYCOL TREATMENT

An inhibited ethylene glycol antifreeze solution and heat transfer fluid of medium toxicity.

It is a clear, colourless liquid with practically no odour. This product has been premixed with water to provide freezing protection down to -50°C .

This glycol solution was designed for use as a non-freezing heat transfer medium for use in heating systems.

GT-750 GLYCOL TREATMENT can be diluted with water if freezing protection to -50°C is not required.

GT-750 GLYCOL TREATMENT is compatible with our boiler water treatment compounds
