

TECHNICAL Data

DRAIN DOCTOR

Drain Doctor is an economical liquid drain opener that works quickly and effectively to clear waste in sinks, urinals and toilets. It is heavier than water, so even a small amount will sink down to the clog and start working immediately. It dissolves grease, oil, sludge and organic matter.

Use in all types of buildings such as hospitals, hotels, motels, nursing homes, institutions, restaurants, and schools.

Directions: For completely clogged drains, pour in 2 cups of Drain Doctor. Let it stand, and then flush thoroughly.

FOR COMMERCIAL USE
