

SCALE B GONE

A concentrated non-foaming acid cleaner based on a blend of phosphoric and sulphuric acids. It is ideally suited for use in food plants and other industrial applications.

It will remove hard water scale build-up and restore cleanliness and brightness to stainless steel parts and surfaces.

The use of this product should be preceded by cleaning and degreasing with a proper alkaline cleaner to remove organic soil.

DIRECTIONS: Dilute product as required with water and apply with a sprayer, brush or by soaking. The solution may also be circulated through pipelines and coils.

All food contact surfaces should be rinsed thoroughly with potable water.

The Canadian Food Inspection Agency has no objection to the use of this product in food plants when used according to label directions.
